Initial Setup

Initial Setup

Overview

Initial Setup

Hardware

Initial Setup

Hypervisor

Initial Setup

Containers

Initial Setup

Docker

Next Steps

Next Steps

Overview

Revisit the "shortcuts" taken in the Initial Setup.

Cover best practices and discuss potential risk.

Improve security and risk management.

Cover publishing externally here or in Advanced Options book?

Common Applications

Common Applications

Overview

A page for each: LibreOffice, Immich, Home-Assistant, Inkscape, Portainer, Actual, Stirling-PDF, Syncthing, PiHole, etc.

Maybe a chapter for each group: Dashboards, Reporting, DNS, Wiki, etc.

This may be too much work to maintain and should just be a list instead???
